

**REMARKS**

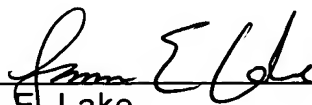

Claims 56-58, 71, and 72 are pending in the application. Applicant expresses appreciation for the allowance of claims 56-58 and 71.

The drawings are objected to under 37 C.F.R. 1.83(a) as allegedly failing to show every feature of the invention specified in the claims. Claim 72 stands rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. Applicant traverses and requests reconsideration. Applicant asserts that Fig. 10 and the text associated therewith at least at page 9, line 14 to page 10, line 13 of the present specification supports the subject matter of claim 72. In particular, page 9, lines 17-20 expressly support the terminology set forth in claim 72. Applicant requests withdrawal of the drawing objection and the written description rejection in the next Office Action.

Applicant herein establishes adequate reasons supporting patentability of claim 72 and requests allowance of claim 72 in the next Office Action.

Respectfully submitted,
